# Who We Are

## About Us

Relevant Industrial is the preferred provider of critical engineered solutions. Every solution we deliver is specialized and customized for each demanding situation a client presents to us.

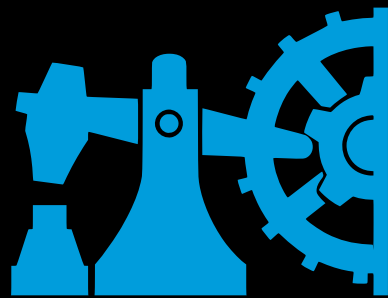

We leverage the vast experience and knowledge gained across our combined histories to provide exceptional solutions, without exception. We continually sharpen our edge with new expertise and we're always ready and focused on the most important job at hand – keeping our customers up and running.

We don't just sell parts and services to our customers; we help them realize new and better ways to run more efficiently.

## Our Mission

Relevant Industrial is customer centric.

We are committed to earning the trust of our partners by solving industry challenges with premiere products, extraordinary people and innovative, relevant solutions.

# What We Do

## Combustion

Burners, Valves, Scanners, Fuel Trains/Skids, Control & Safety Systems

## Instrumentation

Pressure, Temperature, Level & Flow

## Analytical & Analytics

pH, Conductivity, ORP

## Valves & Regulators

Control Valves, On/Off

## Process Controls & Systems

Distributed Control Systems, PLC and SCADA Systems, SIL2 & SIL3 Process Safety

## Fire & Gas Systems

Combustible & Toxic Gases, Flame Detection

## Wireless

Radio, Cellular

## Heat Trace

Freeze Protection, Process Heating

# What We Do

## Rotating Equipment

Compressors, N2 Generators, Air Dryers, Custom or Skid Assembled

## Filtration

Filters for Fuel Gas, Filters for Lube Oil & Liquid Fuel, Demineralized Water Filters, Filters for Seal Gas

## Engineering Services

Engineering, Design, Fabrication

## Service

Field Service, Repair, Custom Configurations

## Accessories

seals, Manifolds, Primary Fold Elements, Etc.

## Test Equipment

# Engineered Services

Success in today's industrial marketplace requires highly specialized equipment, uniquely engineered solutions, and a host of available options to offer potential clients. Our expertise in implementing a wide selection of precision products combined with supporting our customers with critical services is measured in centuries, not decades. Our reputation for reliability is backed by our decades of experience and augmented by our single-point accountability approach when it comes to solution solving. And we're always attuned to the specific needs of our customers.

**Burner Management Panel**

# Our Capabilities

**Burner Management Skid**

**Fuel Skid**

# Our Capabilities

**GE NRG Canal Pump Skid - Cooling Water Pump System**

**H100A with Dryer**

# Our Capabilities

**Air compression system with nitrogen filtration**

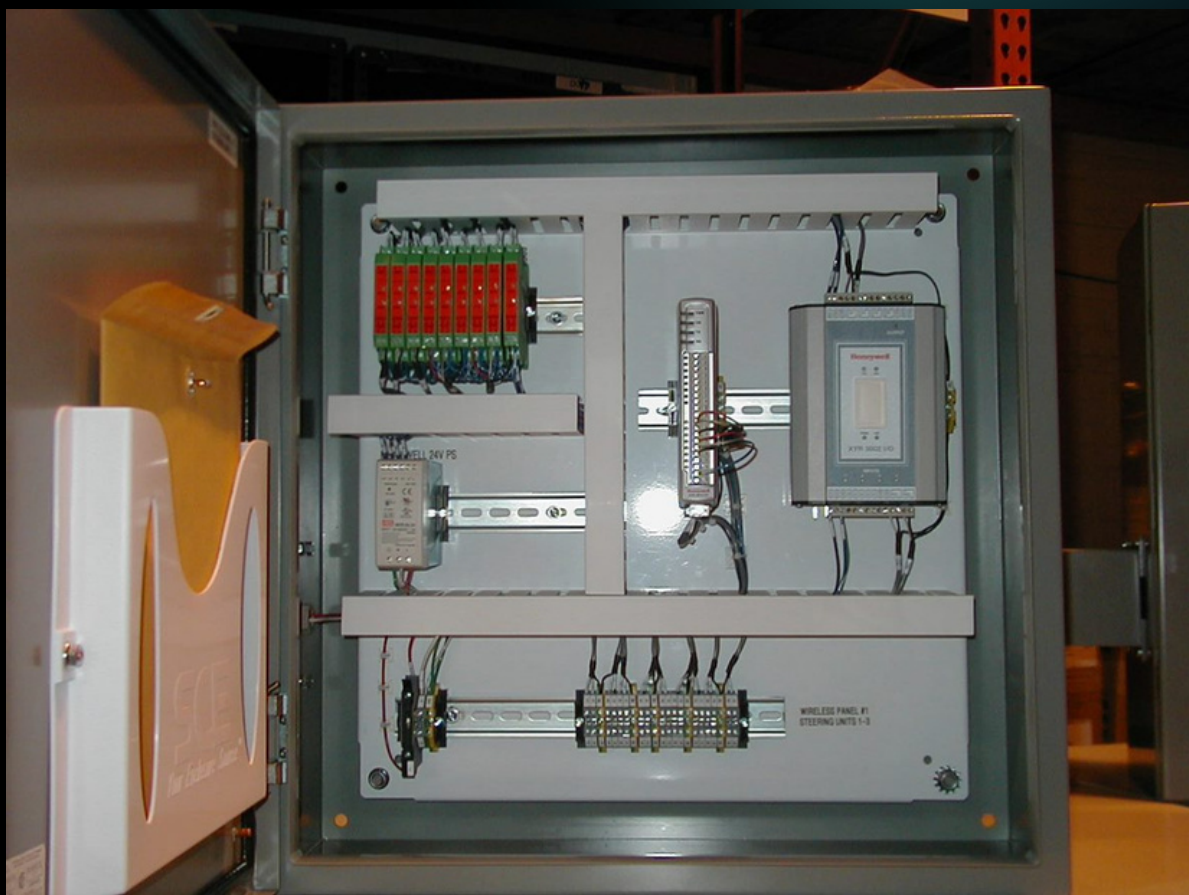

**OEM rotary screw compressor system**

# Our Capabilities

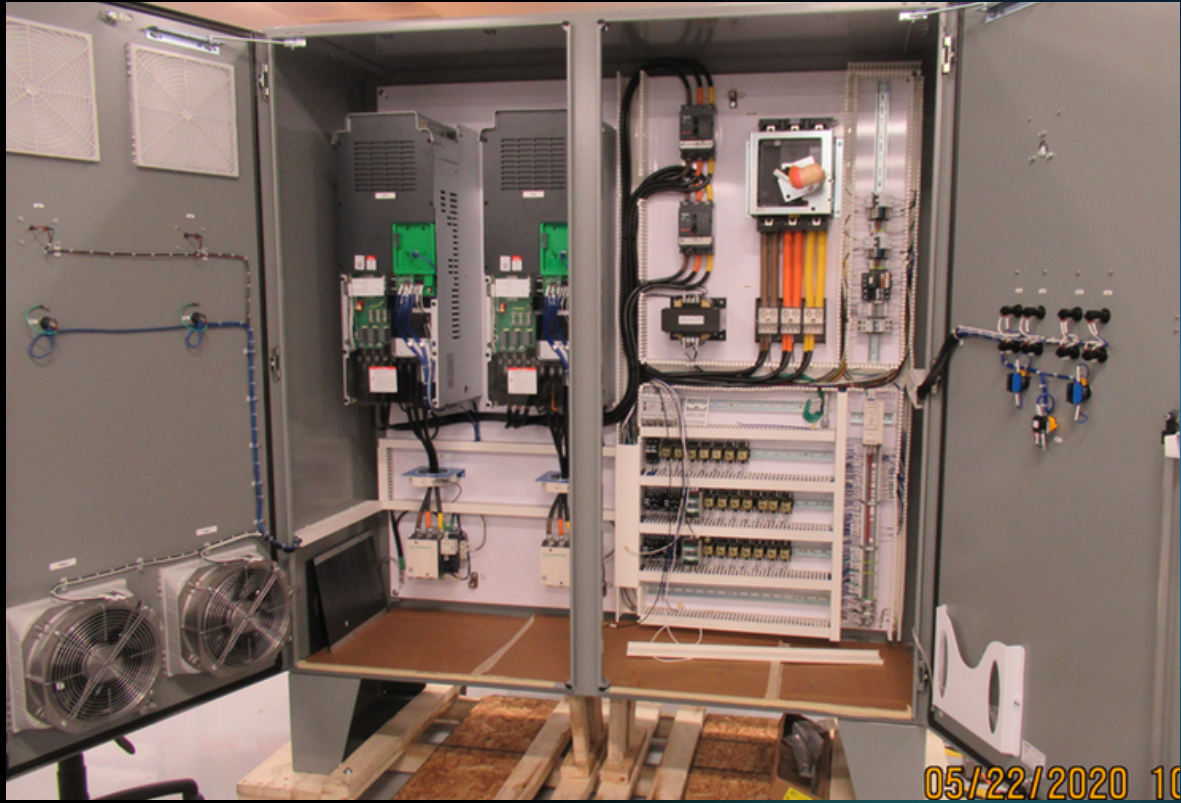

**Blower Package**

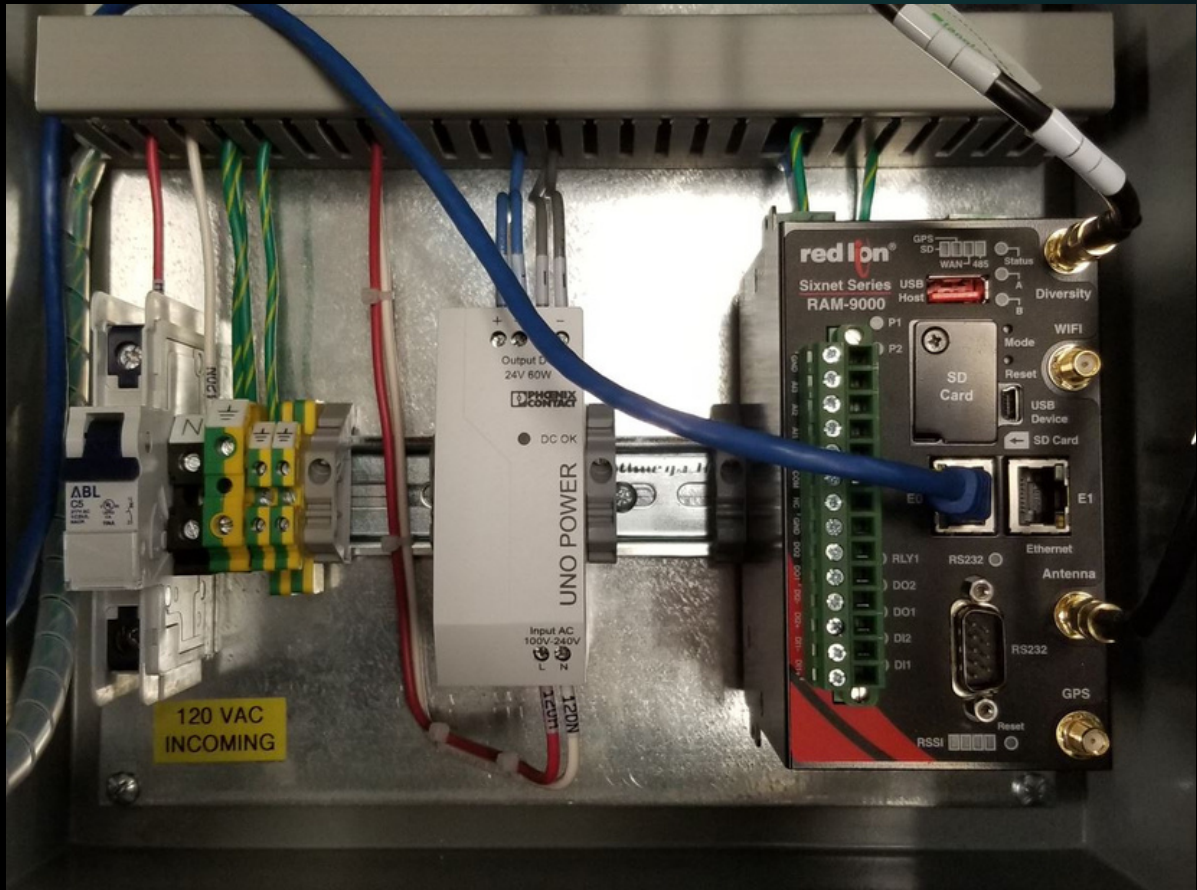

**Wireless IO Transmitter**

# Our Capabilities

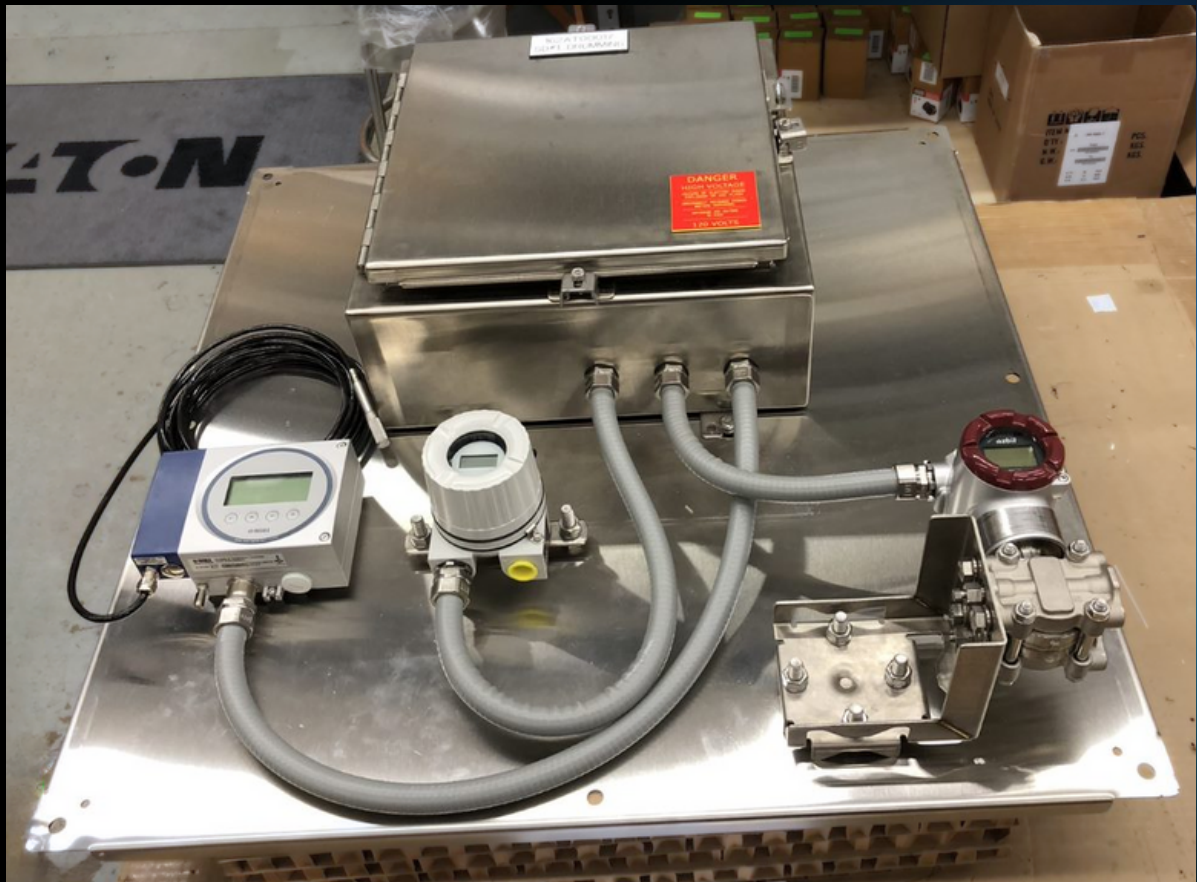

VFD Panel

Cellular Controller

# Our Capabilities

**Instrument Panel**

**PLC Panel**

# Our Capabilities

## SCADA Development

PLC Panel

# Thank you

We are grateful for the opportunity to serve you - Thank you for your consideration.
