

INCREASE YOUR INDUSTRY AND PRODUCT KNOWLEDGE

COMBUSTION AND FLAME SAFETY TRAINING

Course Overview

Course number: FSG-0001

Cost: \$350.00 per student

Duration: 1 Day

Locations:

- 9532 Midwest Ave, Cleveland OH

- 8405 East 30th Street Indianapolis IN

This course provides participants the ability to perform the following Combustion System tasks:

- Wire new RM7800 Series Honeywell Flame Safety relay.
- Troubleshoot and Diagnose Flame Safety Circuit
- Identify key components on Gas Train

The course includes hands-on lab exercises where students will wire and test a complete flame safety circuit.

The course is divided into two sections. The first 4 hours will be dedicated to teaching the students about the fundamentals of combustions, flame safety, and key components which make up the gas delivery system. The second part of the day the students will participate in lab type exercises.

Course Delivery Options

- 1 Day Class at Loy Instrument Training Facility
- On-Site Training can be quoted as option and tailored to meet your specific needs

Perequisite/Skill Requirements

Prerequisite Course(s)

- Cleveland - Eager To Learn
- Indianapolis - Eager To Learn

Course Topics

You will learn how to....

- Combustion Principles
- Gas Delivery Systems (Gas Train)
- Gas Delivery System Basic Codes (NFPA)
- Regulator Types and Functionality
- Flame Safety Basics
 - o Flame Sensor (Flame Rods, UV, IR)
 - o Amplifiers
 - o Primary and Programmer Relays
 - o Pre-Ignition Interlocks
 - o Running Interlocks
 - o Limits
- Wiring Flame Safety Circuits
- Troubleshooting Flame Safety Circuits
