

D11 & A10 ACTUATORS

EXPERIENCE & EXPERTISE

- Over a decade of experience in rebuilding A10 and D11 actuators since 2008.
- First set rebuilt by CFI remained in service for ten years, demonstrating our commitment to quality and longevity.

COMPREHENSIVE SERVICES

- We offer exchange or repair services for D11 steam turbine actuators.
- Our repair process includes double testing and thorough flushing of each actuator.
- Detailed repair reports, including ISO cleanliness levels of test fluid, provided for transparency and accountability.
- Optional Failure Analysis Report (FAR) available upon request.

TAILORED TESTING & QUALITY ASSURANCE

- Actuators tested with your company's preferred fluid: Fyrquel, EcoSafe, or Tellus 32.
- Our inventory boasts an extensive selection of repair parts, with no re-use of rod bearings or tie-rods.

CUSTOMER- CENTRIC APPROACH

- Direct interaction with CFI ensures a seamless repair experience.
- On time delivery, minimizing downtime for your operations.
- Available 24/7/365 for emergencies, providing peace of mind and swift resolution.

24/7/365 Live-Support, Day or Night.
